Create Mark/Destroy Mark (1)

E, C, N

Components: Create Mark -P1, C1/Destroy Mark - P1, D1

Duration: Create Mark: Two years/Destroy Mark: Instantaneous

Target: Item or Spirit

This formal magic will create or destroy an indelible Mark of the appropriate school upon a spirit or an item.

The creation of a Mark can take one of three forms:
- Spirit Mark will always show itself on the surface of the spirit's body.
- Item Mark will always show itself on the surface of the item enchanted.
- Mark of Ownership will always show itself on the surface of the body whose spirit possesses the item (it appears after one hour of possession, and disappears one hour after the item is no longer in possession).

The Mark can be up to two colors chosen by the caster and a size between one and ten square inches at the choice of the caster, at any location upon the target chosen by the caster. A Mark may not be drawn over an existing Mark.
Upon completion of Create Mark, the caster draws the Mark. Upon completion of Destroy Mark, one (non-hidden) mark of the appropriate school present on the target, if there are any, disappears immediately. If more than one mark is present on an item, the caster decides which one is destroyed. If more than one mark is present on a spirit, the target decides which one is destroyed. Note this is one scroll capable of being used as both Create Mark and Destroy Mark.
Any deliberate attempts to violate the spirit of the Mark of Ownership effect by passing the item around quickly will be dealt with by the local chapter disciplinary committee.
